

DATA GROUP

ONC Health IT Certification Details

Costs and Limitations Disclosure

The following outlines expected investments, assuming standard contract terms and conditions.

Third-party Copyrighted Material

There are some third-party items (software or content) required to use some portions of EncounterWorks EHR software. Some are sublicensed or facilitated through DataGroup Technologies, and others are licensed directly from vendors. Licenses for these systems may be one-time or volume based. Examples include: Industry-standard code sets (e.g., CPT, NUBC, ICD-10/HCPS), claims or eligibility clearinghouses, E-Prescribe, and drug databases.

Licensing Models

There are three licensing levels for EncounterWorks subscriptions: Lite, Standard, and Pro. All Meaningful Use certified functionality is standard with all three licensing levels.

Versioning and Updates

Updates and patches are released regularly throughout the year and will contain updated release notes with every update. Sub-versioning of EncounterWorks will include the year and the week number. As of the date of this publication, the most current version of EncounterWorks EHR is 5.1.1949.

Certification Details

Date of Certification: 12/31/2019

Certified Product Version: EncounterWorks EHR 5.1

Certification Number: 15.04.04.2896.Enco.05.00.0.191231

Certification Criteria: a.2, a.3, a.5, a.6, a.7, a.8, a.9, a.10, a.11, a.12, a.13, a.14, b.1, b.2, b.4, b.5, b.6, c.1, c.2, c.3, d.1, d.2, d.3, d.4, d.5, d.6, d.7, d.8, d.9, d.10, d.11, e.1, e.2, e.3, f.1, f.7, g.2, g.3, g.4, g.5, g.6, g.7, g.8, g.9 (additional certified capabilities are available through integrations with DrFirst RCopia).

Electronic Clinical Quality Measures: CMS68v8, CMS122v7, CMS123v7, CMS137v7, CMS161v7, CMS165v7

Address: 100 Fox Haven Drive, Greenville, NC 27834

Phone: (252) 329-1382 **Fax:** (252)317-0615

Costs and Limitations of EncounterWorks EHR 5.1 (2015 Meaningful Use Certified)

Capability	Description of Capability	Costs or Fees <i>Types of costs or fees that a user may be required to pay to purchase, license, implement, maintain, upgrade, use, or otherwise enable and support the use of the implementation or use of the capability -OR- in connection with the data generated in the course using the capability</i>	Contractual Limitations <i>Limitations of a contractual nature (including developer policies and other business practices) that a user may encounter in the implementation or use of the capability -OR- in the connection with the data generated in the course of using the capability</i>	Technical or Practical Limitations <i>Limitations of a technical or practical nature that a user may encounter that could prevent or impair the successful implementation, configuration, maintenance, support or use of the capability -OR- prevent or limit the use, exchange or portability of any data generated in the course of using the capability</i>
170.315(a)(1) Computerized provider order entry (CPOE) – medications	Enables a user to record, change, and access medication orders.	This functionality is provided via integration with DrFirst, our E-Prescribe partner. E-Prescribe services are licensed per provider on an annual basis but are billed monthly as part of the combined subscription cost.	No contractual limitations.	No technical or practical limitations.
170.315 (a)(2) Computerized provider order entry (CPOE) – laboratory	Enables a user to record, change, and access laboratory orders.	No additional costs or fees.	No contractual limitations.	This functionality is provided via integration with Elkay and specific laboratory partners. Connection to these laboratories is required before this functionality will be available unless an in-house laboratory is also using EncounterWorks EHR.
170.315(a)(3) Computerized provider order entry (CPOE) – diagnostic imaging	Enables a user to record, change, and access diagnostic imaging orders.	No additional costs or fees.	No contractual limitations.	This functionality is provided via integration with Elkay and specific laboratory partners. Connection to these laboratories is required before this functionality will be available unless an in-house laboratory is also using EncounterWorks EHR.
170.315 (a)(4) Drug-drug, drug-allergy interaction checks	Before a medication order is completed and acted upon during computerized provider order entry (CPOE), interventions automatically indicate to a user drug-drug and drug-allergy contraindications	This functionality is provided via integration with DrFirst, our E-Prescribe partner. E-Prescribe services are licensed per provider on an annual basis but are billed monthly as part of the combined subscription cost.	No contractual limitations.	No technical or practical limitations.

Address: 100 Fox Haven Drive, Greenville, NC 27834
Phone: (252) 329-1382 **Fax:** (252)317-0615
Web: www.dtinetworks.com

	based on a patient's medication list and medication allergy list.			
170.315(a)(5) Demographics	Enables a user to record, change, and access patient demographic data including race, ethnicity, preferred language, sex, sexual orientation, gender identity, and date of birth among others.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(a)(6) Problem list	Enables a user to record, change, and access a patient's active and historical problem list.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(a)(7) Medication list	Enables a user to record, change, and access a patient's active and historical medication list.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(a)(8) Medication allergy list	Enables a user to record, change, and access a patient's active and historical medication allergy list.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(a)(9) Clinical decision support (CDS)	Provides configurable reminders, interventions, and information to users based on multiple points of patient data including, but not limited to, date of birth, medical problems, medications, and allergies.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(a)(10) Drug-formulary and preferred drug list checks	Automatically checks whether a drug formulary exists for a given patient and medication.	This functionality is provided via integration with DrFirst, our E-Prescribe partner. E-Prescribe services are licensed per provider on an annual basis but are billed monthly as part of the combined subscription cost.	No contractual limitations.	No technical or practical limitations.
170.315(a)(11) Smoking status	Enables a user to record, change, and access the smoking status of a patient.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(a)(12) Family health history	Enables a user to record, change, and access a patient's family health history.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.

Address: 100 Fox Haven Drive, Greenville, NC 27834
Phone: (252) 329-1382 **Fax:** (252)317-0615
Web: www.dtinetworks.com

170.315(a)(13) Patient-specific education resources	Allows the provision of patient-specific education resources based on data included in the patient's problem, medication, and other lists.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(a)(14) Implantable device list	Enables a user to record, view, and change the status of implantable devices.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(b)(1) Transition of care	Enables the creation, transmission, and receipt of transition of care/referral summaries.	No additional costs or fees.	No contractual limitations.	Secure transmission of transition of care/referral summaries requires an active Direct Messaging account in order to be functional.
170.315(b)(2) Clinical information reconciliation and incorporation	Enables the import and merging of patient data using transition of care/referral summaries.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(b)(3) Electronic prescribing	Enables a user to create new prescriptions, change prescriptions, cancel prescriptions, receive fill status notifications, and request and receive medication history.	This functionality is provided via an integration with DrFirst, our E-Prescribe partner. E-Prescribe services are licensed per provider on an annual basis but are billed monthly as part of the combined subscription cost.	Providers must complete the required DEA Identity Verification Process before being authorized to prescribe drugs.	Providers must use a token generator or mobile phone app to perform two factor authentication if prescribing controlled substances.
170.315(b)(4) Common Clinical Data Set summary record – create	Enables a user to create a transition of care/referral summary using the Common Clinical Data Set (CCDS).	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(b)(5) Common Clinical Data Set summary record – receive	Enables a user to receive a transition of care/referral summary using the Common Clinical Data Set (CCDS).	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(b)(6) Data export	Enables a user to export patient data via a Continuity of Care Document (CCD).	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(c)(1) Clinical Quality Measures (CQMs) – record and export Supported CQMs: CMS68v8, CMS122v7, CMS123v7, CMS137v7, CMS161v7, CMS165v7	Enables users to record all necessary data points and export using Quality Reporting Document Architecture, category 1, (QRDA 1) for Clinical Quality Measures (CQMs) contained within EncounterWorks EHR.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.

Address: 100 Fox Haven Drive, Greenville, NC 27834
Phone: (252) 329-1382 **Fax:** (252)317-0615
Web: www.dtinetworks.com

170.315(c)(2) Clinical Quality Measures (CQMs) – import and calculate Supported CQMs: CMS68v8, CMS122v7, CMS123v7, CMS137v7, CMS161v7, CMS165v7	Enables users to import Quality Reporting Document Architecture, category 1, (QRDA 1) files and calculate results for Clinical Quality Measures (CQMs) contained within EncounterWorks EHR. Calculations can be performed on imported or existing data.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(c)(3) Clinical Quality Measures (CQMs) – report Supported CQMs: CMS68v8, CMS122v7, CMS123v7, CMS137v7, CMS161v7, CMS165v7	Enables users to report on Clinical Quality Measures (CQMs) using exported Quality Reporting Document Architecture, category 3, (QRDA 3) files.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(d)(1) Authentication, access control, authorization	Provides multiple levels of access controls based on user configuration as well as secure login credentialing. Dual authentication is also provided.	No additional costs or fees.	No contractual limitations.	Users must use a mobile phone app to perform two factor authentication.
170.315(d)(2) Auditable events and tamper-resistant	Provides audit logging of events within EncounterWorks EHR as well as a record of audit log enabling and disabling.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(d)(3) Audit report(s)	Enables a user to create an audit report, or log, for a specific time period and to sort entries in the audit log.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(d)(4) Amendments	Enable a user to accept and append or deny a patient’s request for amendment of their data.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(d)(5) Automatic access time-out	Automatically stop user access to EncounterWorks EHR after a predetermined period of inactivity.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(d)(6) Emergency access	Permit an identified set of users to access EncounterWorks EHR during an emergency.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(d)(7) End-user device encryption	No local storage of patient health information is used by EncounterWorks EHR. Exported	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.

Address: 100 Fox Haven Drive, Greenville, NC 27834

Phone: (252) 329-1382 **Fax:** (252)317-0615

Web: www.dtinetworks.com

	data is not covered by this rule.			
170.315(d)(8) Integrity	Provides methods of verification for health information exchanged between EncounterWorks EHR and external recipients.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(d)(9) Trusted connection	Connections to EncounterWorks EHR are made using Transport-level encryption. IE: HTTPS with SSL.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(d)(11) Accounting of disclosures	Record disclosures made for treatment, payment, and health care operations.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(e)(1) View, download, transmit to 3 rd party	Allows patients (and their authorized representatives) to be able to use the Patient Portal to view, download, and transmit their health information to a 3 rd party.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(e)(2) Secure messaging	Enables a user to send messages to, and receive messages from, a patient in a secure manner.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(e)(3) Patient health information capture	Enables a user to identify, record, and access information directly and electronically shared by a patient (or authorized representative) as well as reference and link to patient health information documents.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(f)(1) Transmit to immunization registries	Enables a user to transmit, request, access, and display a patient's evaluated immunization history and the immunization forecast from an immunization registry.	No additional costs or fees.	No contractual limitations.	This functionality may require additional coordination with local and state agencies.
170.315(f)(7) Transmit to public health agencies – health care surveys	Create health care survey information for electronic transmission.	No additional costs or fees.	No contractual limitations.	This functionality may require additional coordination with local and state agencies.

170.315(g)(2) Automated measure calculation	For each EHR Incentive Programs percentage-based measure supported by EncounterWorks EHR, calculate the numerator and denominator and create a report including the numerator, denominator, and resulting percentage associated with each applicable measure.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(g)(3) Safety-enhanced design	We utilize a user-centered design and development process in order to continuously make our software more user friendly, productive, and satisfactory to the end-user.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(g)(4) Quality management system	We utilize the ISO 9001 quality management system during our development process in order to provide the highest quality software.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(g)(5) Accessibility-centered design	We focus on accessibility during product development to ensure compliance to WCAG 2.0 Level A standards.	No additional costs or fees.	No contractual limitations.	WCAG 2.0 Level A compliance is only guaranteed for the patient portal.
170.315(g)(6) Consolidated Clinical Document Architecture (C-CDA) creation performance	Provides methods for the creation of Consolidated Clinical Document Architecture (C-CDA) files for export.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(g)(7) Application access – patient selection	Enables searching for patients through access to the application programming interface (API).	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(g)(8) Application access – data category request	Enables searching for a specific patient’s data through access to the application programming interface (API).	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(g)(9) Application access – all data request	Enables retrieval of the full Common Clinical Data Set through access to our Application Programming Interface (API).	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.

Address: 100 Fox Haven Drive, Greenville, NC 27834

Costs and Limitations of EncounterWorks EHR 5.1 (2015 Meaningful Use Certified)

Capability	Description of Capability	Costs or Fees <i>Types of costs or fees that a user may be required to pay to purchase, license, implement, maintain, upgrade, use, or otherwise enable and support the use of the implementation or use of the capability -OR- in connection with the data generated in the course using the capability</i>	Contractual Limitations <i>Limitations of a contractual nature (including developer policies and other business practices) that a user may encounter in the implementation or use of the capability -OR- in the connection with the data generated in the course of using the capability</i>	Technical or Practical Limitations <i>Limitations of a technical or practical nature that a user may encounter that could prevent or impair the successful implementation, configuration, maintenance, support or use of the capability -OR- prevent or limit the use, exchange or portability of any data generated in the course of using the capability</i>
170.315(a)(1) Computerized provider order entry (CPOE) – medications	Enables a user to record, change, and access medication orders.	This functionality is provided via integration with DrFirst, our E-Prescribe partner. E-Prescribe services are licensed per provider on an annual basis but are billed monthly as part of the combined subscription cost.	No contractual limitations.	No technical or practical limitations.
170.315 (a)(2) Computerized provider order entry (CPOE) – laboratory	Enables a user to record, change, and access laboratory orders.	No additional costs or fees.	No contractual limitations.	This functionality is provided via integration with Elkay and specific laboratory partners. Connection to these laboratories is required before this functionality will be available.
170.315(a)(3) Computerized provider order entry (CPOE) – diagnostic imaging	Enables a user to record, change, and access diagnostic imaging orders.	No additional costs or fees.	No contractual limitations.	This functionality is provided via integration with Elkay and specific laboratory partners. Connection to these laboratories is required before this functionality will be available.
170.315 (a)(4) Drug-drug, drug-allergy interaction checks	Before a medication order is completed and acted upon during computerized provider order entry (CPOE), interventions automatically indicate to a user drug-drug and drug-allergy contraindications based on a patient's medication list and medication allergy list.	This functionality is provided via integration with DrFirst, our E-Prescribe partner. E-Prescribe services are licensed per provider on an annual basis but are billed monthly as part of the combined subscription cost.	No contractual limitations.	No technical or practical limitations.
170.315(a)(5) Demographics	Enables a user to record, change, and access patient demographic data including race, ethnicity, preferred language, sex, sexual	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.

Address: 100 Fox Haven Drive, Greenville, NC 27834
Phone: (252) 329-1382 **Fax:** (252)317-0615
Web: www.dtinetworks.com

	orientation, gender identity, and date of birth among others.			
170.315(a)(6) Problem list	Enables a user to record, change, and access a patient's active and historical problem list.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(a)(7) Medication list	Enables a user to record, change, and access a patient's active and historical medication list.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(a)(8) Medication allergy list	Enables a user to record, change, and access a patient's active and historical medication allergy list.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(a)(9) Clinical decision support (CDS)	Provides configurable reminders, interventions, and information to users based on multiple points of patient data including, but not limited to, date of birth, medical problems, medications, and allergies.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(a)(10) Drug-formulary and preferred drug list checks	Automatically checks whether a drug formulary exists for a given patient and medication.	This functionality is provided via integration with DrFirst, our E-Prescribe partner. E-Prescribe services are licensed per provider on an annual basis but are billed monthly as part of the combined subscription cost.	No contractual limitations.	No technical or practical limitations.
170.315(a)(11) Smoking status	Enables a user to record, change, and access the smoking status of a patient.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(a)(12) Family health history	Enables a user to record, change, and access a patient's family health history.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(a)(13) Patient-specific education resources	Allows the provision of patient-specific education resources based on data included in the patient's problem, medication, and other lists.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(a)(14) Implantable device list	Enables a user to record, view, and change the status of implantable devices.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.

Address: 100 Fox Haven Drive, Greenville, NC 27834

Phone: (252) 329-1382 **Fax:** (252)317-0615

Web: www.dtinetworks.com

170.315(b)(1) Transition of care	Enables the creation, transmission, and receipt of transition of care/referral summaries.	No additional costs or fees.	No contractual limitations.	Secure transmission of transition of care/referral summaries requires an active Direct Messaging account in order to be functional.
170.315(b)(2) Clinical information reconciliation and incorporation	Enables the import and merging of patient data using transition of care/referral summaries.	No additional costs or fees.	No contractual limitations.	
170.315(b)(3) Electronic prescribing	Enables a user to create new prescriptions, change prescriptions, cancel prescriptions, receive fill status notifications, and request and receive medication history.	This functionality is provided via an integration with DrFirst, our E-Prescribe partner. E-Prescribe services are licensed per provider on an annual basis but are billed monthly as part of the combined subscription cost.	Providers must complete the required DEA Identity Verification Process before being authorized to prescribe drugs.	Providers must use a token generator or mobile phone app to perform two factor authentication.
170.315(b)(4) Common Clinical Data Set summary record – create	Enables a user to create a transition of care/referral summary using the Common Clinical Data Set (CCDS).	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(b)(5) Common Clinical Data Set summary record – receive	Enables a user to receive a transition of care/referral summary using the Common Clinical Data Set (CCDS).	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(b)(6) Data export	Enables a user to export patient data via a Continuity of Care Document (CCD).	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(c)(1) Clinical Quality Measures (CQMs) – record and export Supported CQMs: CMS68v8, CMS122v7, CMS123v7, CMS137v7, CMS161v7, CMS165v7	Enables users to record all necessary data points and export using Quality Reporting Document Architecture, category 1, (QRDA 1) for Clinical Quality Measures (CQMs) contained within EncounterWorks EHR.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(c)(2) Clinical Quality Measures (CQMs) – import and calculate Supported CQMs: CMS68v8, CMS122v7, CMS123v7, CMS137v7, CMS161v7, CMS165v7	Enables users to import Quality Reporting Document Architecture, category 1, (QRDA 1) files and calculate results for Clinical Quality Measures (CQMs) contained within EncounterWorks EHR. Calculations can be performed on imported or existing data.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.

Address: 100 Fox Haven Drive, Greenville, NC 27834
Phone: (252) 329-1382 **Fax:** (252)317-0615
Web: www.dtinetworks.com

170.315(c)(3) Clinical Quality Measures (CQMs) – report Supported CQMs: CMS68v8, CMS122v7, CMS123v7, CMS137v7, CMS161v7, CMS165v7	Enables users to report on Clinical Quality Measures (CQMs) using exported Quality Reporting Document Architecture, category 3, (QRDA 3) files.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(d)(1) Authentication, access control, authorization	Provides multiple levels of access controls based on user configuration as well as secure login credentialing. Dual authentication is also provided.	No additional costs or fees.	No contractual limitations.	Users must use a mobile phone app to perform two factor authentication.
170.315(d)(2) Auditable events and tamper-resistant	Provides audit logging of events within EncounterWorks EHR as well as a record of audit log enabling and disabling.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(d)(3) Audit report(s)	Enables a user to create an audit report, or log, for a specific time period and to sort entries in the audit log.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(d)(4) Amendments	Enable a user to accept and append or deny a patient’s request for amendment of their data.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(d)(5) Automatic access time-out	Automatically stop user access to EncounterWorks EHR after a predetermined period of inactivity.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(d)(6) Emergency access	Permit an identified set of users to access EncounterWorks EHR during an emergency.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(d)(7) End-user device encryption	No local storage of patient health information is used by EncounterWorks EHR. Exported data is not covered by this rule.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(d)(8) Integrity	Provides methods of verification for health information exchanged between EncounterWorks EHR and external recipients.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(d)(9) Trusted connection	Connections to EncounterWorks EHR are made using Transport-level encryption. IE: HTTPS with	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.

	SSL.			
170.315(d)(11) Accounting of disclosures	Record disclosures made for treatment, payment, and health care operations.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(e)(1) View, download, transmit to 3 rd party	Allows patients (and their authorized representatives) to be able to use the Patient Portal to view, download, and transmit their health information to a 3 rd party.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(e)(2) Secure messaging	Enables a user to send messages to, and receive messages from, a patient in a secure manner.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(e)(3) Patient health information capture	Enables a user to identify, record, and access information directly and electronically shared by a patient (or authorized representative) as well as reference and link to patient health information documents.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(f)(1) Transmit to immunization registries	Enables a user to transmit, request, access, and display a patient's evaluated immunization history and the immunization forecast from an immunization registry.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(f)(7) Transmit to public health agencies – health care surveys	Create health care survey information for electronic transmission.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
170.315(g)(2) Automated measure calculation	For each EHR Incentive Programs percentage-based measure supported by EncounterWorks EHR, calculate the numerator and denominator and create a report including the numerator, denominator, and resulting percentage associated with each applicable measure.	No additional costs or fees.	No contractual limitations.	No technical or practical limitations.
